***Reason for allowance***

The following is an examiner's statement of reasons for allowance: in view of the amendment filed on 10-17-05, the prior art reference of records (US Pat. 5,952,859 and US Pat. 5,990,717) fail to teach or fairly suggest a method for resetting a jam latch comprising: applying a reset voltage to a storage cell including coupling the reset voltage across the activated first reset device and across the activated second reset device, outputting a voltage from a voltage source controller the voltage source controller including a control input coupled to the output of the activation device and a voltage input coupled to a voltage source and applying the voltage to the output of the storage cell as called for in claim 1; a jam latch reset circuit comprising first and second reset devices connected in series, a storage cell having an input coupled to an input transistor, a voltage source coupled to the output of the storage cell through a voltage source controller having a control input coupled to the output of the activation device as called for in claim 9; a method of capturing data in a jam latch circuit comprising applying a reset voltage to the storage cell including coupling the reset voltage across the activated first reset device and across the activated second reset device; outputting a voltage from a voltage source controller wherein the voltage source controller includes a control input coupled to the output of the activation device, a voltage input coupled to a voltage source and applying the voltage to the output of the storage cell as called for in claim 19. Therefore, claims 1-6, 8-13 and 16-20 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
